High-speed insertion envelope for of transactional mail

### Customer Testimonials:

*"We, at Matrix, have found that using the outside side-seamed envelope has greatly improved our production and has given us the confidence to pursue business at a high level."*

- Joseph A. Olivero, Owner, Matrix Imaging Solutions

*"We found that this envelope has a tendency not to warp and we are experiencing fewer jams during the insertion process increasing production, eliminating waste and containing cost. The envelope has been so successful we plan on transitioning all our production and non-production envelopes to the outside seam over the next year."*

- Sam Cappellino, Manager, BlueCross BlueShield

*"The outside seam envelopes have improved our productivity; there are relatively no problems that are caused by the envelopes, as compared to previous styles used."*

- Rick Dentinger, Operations Manager, First Niagara Bank
